

We Spiralled Out Lyrics

We spiralled out for an hour or so
We settled down with a minute to go
Everything in flux
the tables have turned
All of the plates have crashed the floor

We watched the show for an hour or so
One episode with some answers we'd hoped
Funny how it goes
When timing is good
All of the jokes with room for more

It's just an opinion
but it's looking good
It's just my opinion
but it's looking good

We crossed the bridge and we paid the toll
We got there quick but we still felt old
Our shirts wrinkled up
Forgot to prepare
Usually I forget water

It's just an opinion
but it's looking good
It's just my opinion
but it's looking good

The tides shifting quicker than last night
